5th International Conference on Sustainable Agriculture and Environment (ICSAE-5)

8-10 October 2018

Diar Lemdina Hotel, Hammamet City – Tunisia

Web: www.agrienv.com, e-mail: info@agrienv.com

Call for abstract

We are pleased to invite you to participate in the 5th International Conference on Sustainable Agriculture and Environment (5th ICSAE), which will be held at Diar Lemdina Hotel, Hammamet City, Tunisia, on October 8-10, 2018. This conference supported by:

- Sabelas Maret University (Indonesia)
- Selcuk University (Turkey)
- International Center for Agricultural Research in the Dry Areas (ICARDA)
- School of Higher Education in Agriculture of Mateur (ESAM) (Tunisia)
- Institut Supérieur de la Pêche et de l'Aquaculture de Bizerte (ISPAB) (Tunisia)
- Institution of Agricultural Research and Higher Education (IRESA) (Tunisia)
- Carthage University

This is an event for researchers, scholars, engineers, resources managers, students, policy-makers, and all those interested in agricultural and environmental sciences. The conference provides great opportunity to network with colleagues worldwide to share knowledge and experience on teaching and research in agricultural and environmental area.

Important dates

Abstract submission deadline: July 20, 2018.

Notification of acceptance: August 20, 2018.

Full paper submission deadline: September 17, 2018.

**5th International Conference on Sustainable Agriculture and Environment
(5th ICSAE) October 8-10, 2018, City of Hammamet – Tunisia**

Scope of the Conference

The main scope of this symposium is to invite the experts to discuss the projects and applications on sustainable development in agriculture and environment. The main topic areas include interaction between agriculture and environment, social and economic aspects of environment, biology and agriculture, sustainable development, tropical agriculture, biodiversity, biotechnology, horticulture, plants, animal production, climate change, water management, soil conservation, integrated agriculture management, hydraulic structure, food security, and other related agriculture and environment issue. See below “Conference Topics” list for more detail.

Submitted papers will be reviewed by the conference scientific committee. All accepted papers will be published in the conference proceeding book. Selected papers based on the quality will be published in one of the journals below:

- Selcuk Journal of Agriculture and Food Sciences
- Journal of International Environmental Application & Science
- Journal of New Sciences

Conference Topics

The topics of the conference include, but not limited to, the areas listed below:

Research Field	Topics
Agriculture	General agriculture, agricultural education, biodiversity, plant and animal genetic resources, biotechnology, horticulture, plants, animal production, animal nutrition, rangeland management, crop-livestock farming, soil health, agriculture social economics, integrated pest management, and integrated agriculture management
Environment and Climate change	Environmental Sciences, local ecological knowledge, soil, water, and climate, climate change, structures and environment, ecosystem services and rangelands, agroecology, waste management, biosolids, water and wastewater treatment, maintenance and operation, surface and groundwater resources, and hydraulic structure
Nanotechnology and precision farming	Nanotechnology and agriculture, precision farming and variable rate technology, power and machinery in agriculture, GPS and GIS technology, mathematical modeling in agriculture, renewable energy & energy management
Food Sciences	Food sovereignty and food security, food quality
Fishing and aquaculture	Fishing and aquaculture
